WORKING TOGETHER

Wessex Training and Assessment - Information, Advice and Guidance

Wessex Training and Assessment aim to deliver high quality and impartial 'Information, Advice and Guidance' (IAG). We have accessible, visible, and up to date information available on a range of platforms – website, verbal, paper-based and face to face meetings if requested. We aim to support improvement, achievement, and progression of individuals within the Early Years sector.

Our staff will be responsive to and empower enquirers and perspective learners and employers to gain information to enable them to choose a relevant qualification to suit their individual needs.

This may be at the initial stage - raise awareness on the availability of qualifications, funding initiatives, support arrangements.

Ongoing – through the qualification – support progress, advise on assessment requirements and provide relevant support for any additional needs. Where issues arise, listen to concerns and treat each one as an individual case offering unbiased information advice and guidance.

When the learner has completed the qualification – offer advice on career progression and further learning opportunities.

To ensure the validity of the IAG, Wessex works with our partners South West Association of Training Providers (Swatpro) as well as Dorset Early Years (Dorset Council) and Dorset and Somerset Training Provider Network (DSTPN).
